Creature Overview:

A clear perception of the growing requirement of the corporate world in the area of IT has enabled **Creature Soft Lab** to develop programs of specific relevance for the present and the future.

We offer a complete range of development solution on technologies like Web-oriented technologies, Desktop Application Development.

Creature Mission:

"Bringing technology **everywhere** and for **everyone**".

"To meet our every objective by being creative, productive, persistent and well timed in whatever we do.

Creature Vision:

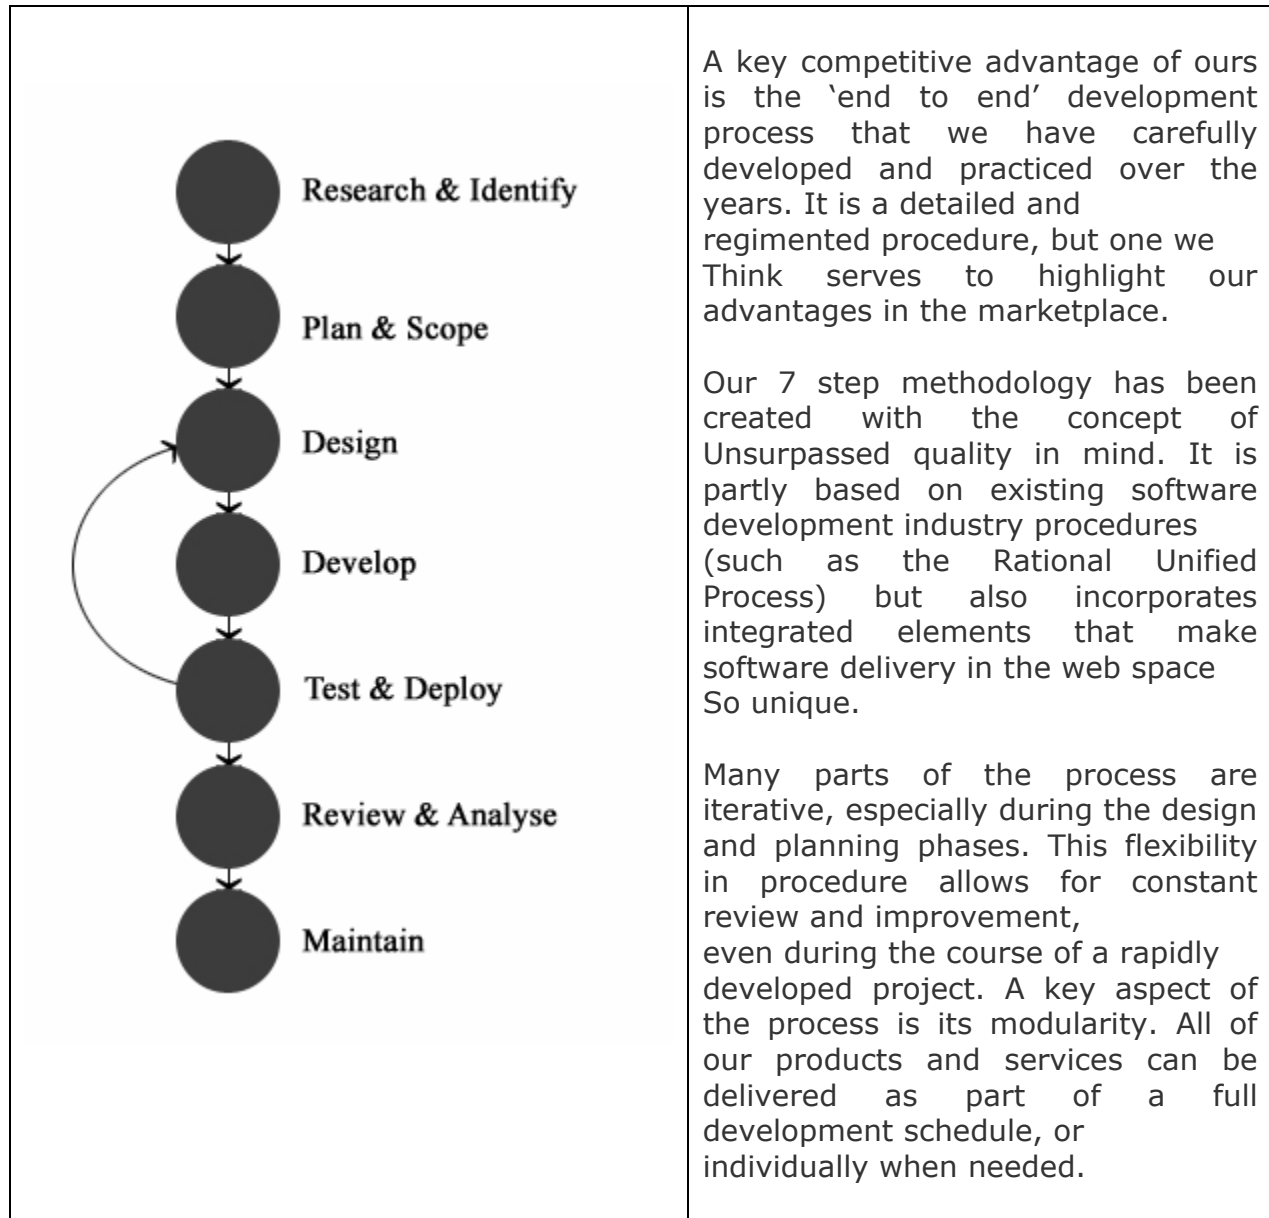

"To become a major part of the fastest growing IT world by helping individuals and corporate to effectively do their business and to serve the people in major".

Creature Philosophy

"Success is never a destiny, it's just a beginning". So never sit back and relax in the happiness of success, then you will be forced to stay back, just stay focused for the next success. This never dying attitude is what makes us to move forward and keeps us unique from others.

"Small opportunities are often the beginning of great enterprises". So we never miss out even a single opportunity to perform for our esteemed clients.

Creature Service Methodology:

Creature Services:

✓ **Offshore Outsourcing**

'Outsourcing' is the buzz word you keep on hearing in the corporate world today. Every organization does outsource some of their process to other off shore development centers located in countries like India and other Asian countries. Why outsource to us?

There are three main reasons why companies outsource to us.

- Cost Effective
- On top quality
- Accurate time delivery.

✓ **Web Technologies.**

We design and build websites from extremely complex application driven sites, to smaller one, we've helped businesses around the world make the jump onto the web easily and effectively. We deliver maximum customer value and enhance positive corporate awareness by attacking the fundamental web development hurdle - usability.

We are expertise in

- Open Source Technologies
 - PHP 5
 - MySQL
 - Apache
 - AJAX
- Content Management System

✓ **Business solutions**

With state-of-the-art design and development environments, we are blended with technology expertise and advanced methodologies to provide Desktop solutions; we develop varied range of tools and software packages.

✓ **Multimedia solutions:**

First Impression is the best impression, we all know it well, but it's half true. It's the curiosity of the customer which makes them to have the second look, which gets you the business. Keeping this in mind we come up with very creative work for our clients in 2D, 3D and as well as in special effects.

✓ **Work Culture**

"Fresh mind, fresh thinking"

Creature is fully composed of dynamic, young and committed people of age not more than thirty, now you could guess the freshness of the mind working here, Out of the box thinking is what we get, which could help our clients to be innovative and competitive in their respective market for the changing generation and trends. As you think, so shall you be.

"Freedom is always and exclusively for the one who thinks differently". Here in creature everyone is given the freedom to come out with their point of views. **"We think and therefore we are."**

We are having a team of 10 members including 2 Web designers and 4 software developers and 2 software testers.
